

Asad Hossain Anik

Dhaka

rv9yxp98sz@privaterelay.appleid.com

8801708044344

Meticulous web developer of front end experience and passion for learning new things every time. And interested in exploring things.

Willing to relocate to: London - -

Work Experience

Music Player

Mobile App with React-Native

June 2021 to Present

Application is cross-platform for mobile device which is React Native App. Worked with storage and file sync and reading for music search into App.

covid condition checker of all countries

Covid-19 Tracker

October 2020 to October 2020

This can check all over the counties covid condition like deaths, infecteds, recovered numbers. Entire applications state comes from REST API service and uses this with React.js library.

Al-Quraan

Read holy Quraan App

December 2019 to December 2019

This front end react.js app with firebase and react-bootstrap

Social App

social media app

December 2018 to December 2018

Social media application with help of Firebase backend system. I use as much advantage as possible from firebase to make authentication and login registers from backend and login providers like Facebook login Google login and so on.
